

OVER THE RAINBOW – Amazonite & Tassel Stretch Bracelet

Components:

20 x Amazonite 8mm faceted beads (SP-1430)
1 x Small aqua tassel (MTA-30AQ)
1 x TierraCast antique silver Hamsa charm (TC-2327)
2 x TierraCast 9mm silver Clover bead cap end (TC-5605)
5 x TierraCast 7mm Panten silver spacer beads (TC-5678)
2 x TierraCast 10mm Heishi (2mm hole) with loop (TC-5747)
2 x Silver plated 6mm Jumplock jumprings (SSJL06)
Stretch Magic cord .8 mm Clear x 30cm (SM08CL5)

Tools:

Scissors, Flat nose pliers, GS Hypo cement glue (optional)

Instructions:

Step 1

Cut a 30cm length of clear stretch magic. Assemble your beads in the pattern in which you want to thread them onto the stretch magic cord. Using one jump ring connect the tassel to the hanger, and use the other jump ring to connect the Hamsa charm to the other hanger.

Step 2

Thread your bead cap, beads, spacers, tassel and Hamsa charm onto the Stretch Magic Cord.

Step 3

You will find very good instructions on tying the knots to hold your beads in place on the back of the Stretch Magic packaging. I like to use a little GS Hypo cement glue after you have tied your final knot. It dries clear and does help strengthen the knot. When it is dry trim off any excess stretch cord. Ease the knot inside holes of larger beads to hide from view.
