Instructions to complete the Earrings

Step 1

You will find the small loop on the earwire is facing the wrong way to attach the jump ring and earring, so using your flat nose pliers gently turn just the small loop so the loop on the earwire now faces the front.

Step 2

Take a jumpring and open it using your pliers, attach the jumpring to the loop on the earwire plus one small rose gold circle link and one large rose gold circle link. Then close the jumpring. Repeat this process to complete both earrings.

Step 3

Using your pliers open a jumpring and feed the jumpring through the top of the mini tassel. Repeat this process with each tassel and jumpring, all your tassels should now have a jumpring connected. Attach three tassels to each of the largest rose gold circle link and using your pliers close each jumpring. You have now made yourself a pair of Rose Gold Circle Tassel Earrings.
